25X1A [ ] Comment. A total of 308 carloads arrived at, and 253 carloads were dispatched from, the depot in July 1953 and 342 carloads arrived and 222 carloads were dispatched in August 1953. The volume of incoming and outgoing shipments was at about the same level as that during the preceding months. The difference between incoming and outgoing shipments can be explained by the fact that part of the outgoing shipments, according to previous observations 15 to 20 percent of the total, were picked up at the installation. No information on stock-piling has been received. The increased flour shipments to the bakery at Satz Korn are worthy of note. [ ]
